Test-Taking *Superpowers*

A visualization toolkit for scoring higher, every single time

VISUALIZE IT · BELIEVE IT · DO IT

THIS BELONGS TO _____

Before every test: *Close your eyes for 30 seconds. Picture the best version of yourself — calm, focused, working through every problem with confidence. That person is you. She shows up every time.*

✦ *The Pre-Test Ritual — Do This Every Time*

1. Take 3 slow, deep breaths to settle your mind
2. Write down key formulas on your scratch paper
3. Skim the full test so you know what's ahead
4. Whisper: "I am prepared. I will do my best."

PRE-TEST RITUAL → READ CAREFULLY → WORK & MOVE ON → QUICK SENSE CHECK → FULL REVIEW

THE 7 HABITS I VISUALIZE BEFORE & DURING EVERY TEST

1 Read Every Word of the Prompt

I see myself slowly reading each question, underlining key words like "NOT" or "EXCEPT." I never start writing until I truly understand what's being asked.

"I read to understand, not just to finish."

2 Slow Down — No Careless Mistakes

I picture pausing one breath after each step to check signs, units, and details. I never throw away easy points I've already earned.

"Slow is smooth. Smooth is high scores."

3 Stuck? Circle It & Move Forward

When I hit a hard problem, I confidently star it and keep going. Fresh eyes later often make the answer obvious the second time around.

"Every point counts — grab the easy ones first."

4 Quick Common-Sense Check

After each answer I ask: "Does this make sense?" If I solved for age and got 300 years, I know something's wrong. I picture catching those moments every time.

"My gut is a great first editor."

5 Thorough Review — Never Turn In Early

I visualize finishing, taking a breath, then reviewing every answer carefully. I imagine catching at least one mistake. Extra time = extra points. Always.

"Finished first doesn't mean finished best."

6 Breathe Through Anxiety

When panic creeps in, I put my pencil down for 5 seconds and breathe slowly. Anxiety lies — it tells me I don't know things I actually do. A calm mind remembers more.

"Breathe in confidence, breathe out doubt."

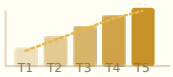
7 Use Process of Elimination

On multiple-choice, I cross off answers I know are wrong. Going from 4 choices to 2 makes a smart guess possible. A reasoned guess beats a blank every time.

"Eliminate the wrong. Reveal the right."

MY DURING-TEST CHECKLIST

- [ ] Re-read each question
- [ ] Underlined key words
- [ ] Showed all my work
- [ ] Checked units & signs
- [ ] Circled items to return to
- [ ] Did NOT turn in early
- [ ] Common-sense check done
- [ ] Stayed calm throughout



"I am smart, I am prepared, and I give my best every time."

READ THIS OUT LOUD BEFORE EVERY TEST ✦

✦ *Visualize success · Practice the habit · Own the result* ✦

Progress over perfection. One test at a time. ✦
